Research Interests

- Computer Algebra, especially in polynomial factorization
- Symbolic-numeric Computation, especially in integer relation finding
- Computational Number Theory, especially in algorithms for geometry of numbers
- Lattice-based Cryptography, especially in FHE and its application

Positions

- 17.12– Chongqing Key Lab of Automated Reasoning and Cognition, Chongqing Institute of Green and Intelligent Technology, Chinese Academy of Sciences. Associate Professor
- 15.10–15.11 Fields Institute, University of Toronto. Academic Visitor
- 13.07–17.12 Chongqing Key Lab of Automated Reasoning and Cognition, Chongqing Institute of Green and Intelligent Technology, Chinese Academy of Sciences. Assistant Professor

Education

- 12.01–12.12 Laboratoire de l'Informatique du Parallélisme, CNRS-ENSL-UCBL, Lyon, France.
Visiting Ph.D. student
Supervisors: Damien STEHLÉ and Gilles VILLARD
- 07.09–13.07 Chengdu Institute of Computer Applications, Chinese Academy of Sciences
Degree: Ph.D. in Computer Science
Dissertation: Study on Theories and Algorithms for Several Problems in Symbolic-Numeric Hybrid Computation
Advisor: Yong FENG
- 03.09–07.06 College of Mathematics and Statistics, Southwest University, Chongqing, China
Degree: Bachelor of Science in Mathematics and Applied Mathematics
Advisor: Jia WANG

Awards and Honors

- 11.10 CAS-CNRS (France): China-France Joint Doctoral Promotion Program
- 08.07 Graduate University, CAS: Excellent Graduate Student
- 07.06 Southwest University: Excellent Graduates
- 07.03 COMAP (USA): Honorable Mention of The Mathematical Contest in Modeling
- 05.11/06.11 CSIAM: Second Prizes of China Undergraduate Mathematical Contest in Modeling
- 05.12 Ministry of Education: National Scholarship

Grants

- 18.01-21.12 Youth Innovation Promotion Association CAS: *Lattice reduction algorithms and its application*, RMB 800,000.
- 16.01-18.12 National Natural Science Foundation of China (Grant No.: 11501540): *Error-controllable algorithms for integer relation finding and applications*, RMB 180,000.
- 15.01-17.12 “Light of the West” project of Chinese Academy of Sciences: *Lattice reduction and application in homomorphic encryption*, RMB 100,000.
- 12.01-12.12 “Miaozi” Project of Sichuan Province: *Implementation of efficient symbolic-numeric algorithms for polynomial factorization*, RMB 15,000.

Talks

- 18.11 Computing an LLL-reduced basis of the orthogonal lattice. JN Univ., Guangzhou
- 18.10 Algorithms & experiments for computing integer relations. CM'18, Wuhan
- 18.07 Computing an LLL-reduced basis of the orthogonal lattice. ISSAC'18, New York
- 18.03 Finding integer relation via lattice reduction. Seminar on Error-free Computation, Chongqing
- 17.10 An integer relation finding algorithm based on Lovász exchange. CM'17, Xiangtan
- 17.05 Reducing lattice bases with Bergman exchange. ICCSN'17, Guangzhou
- 16.10 Sparse non-negative matrix factorization with generalized Kullback-Leibler divergence. IDEAL'16, Yangzhou
- 15.08 On integer relation finding problem: reducing knapsack lattice bases. 3rd HMSNC – 8th ICIAM, Beijing
- 14.07 Two variants of HJLS-PSLQ with applications. SNC'14, Shanghai
- 13.06 A new view on HJLS and PSLQ: Sums and projections of lattices. ISSAC'13, Boston
- 12.12 A new view on PSLQ: Computing with projections of lattices. AriC work session, Lyon
- 10.10 Reconstructing minimal polynomial from approximate algebraic numbers. CM'10, Shanghai

Posters

- 13.06 Incremental PSLQ with application to algebraic number reconstruction. ISSAC'13, Boston
- 12.07 An efficient algorithm to factorize sparse bivariate polynomials over the rationals. ISSAC'12, Grenoble

Committees

- Program ICCSN'17
- Local CM'14

Referee/Reviewer

- Journal International Journal of Foundations of Computer Science, IEEE Access
- Conference FSDM'16, ICCSN'17, CM'18

Conferences Participated in

- 18.11 Annual Conference of Youth Innovation Promotion Association, CAS, Kunming
- 18.10 10th Conference on Computer Mathematics, Wuhan
- 18.09 Forum on FHE and Its Application, Guangzhou
- 18.07 International Conference on Mathematical Software, South Bend
- 18.07 43rd International Symposium on Symbolic and Algebraic Computation, New York
- 18.05 Youth Forum of Yangtze River Economic Zone, Kaizhou
- 17.10 ChinaCrypt'17, Ji'nan
- 17.10 9th Conference on Computer Mathematics, Xiangtan

- 17.06 7th International Workshop on Computer Science and Engineering, Beijing
- 17.05 Workshop on Cryptographic Algorithms, Guilin
- 17.05 9th International Conference on Communication Software and Networks, Guangzhou
- 16.12 Tsinghua-Cornell Workshop on Security and Cryptography, Beijing
- 16.11 Symposium on Mathematical Mechanization and Education Information Technology, Chengdu
- 16.11 12th International Conference on Information Security Practice and Experience, Zhangjiajie
- 16.10 17th International Conference on Intelligent Data Engineering and Automated Learning, Yangzhou
- 15.08 8th International Congress on Industrial and Applied Mathematics, Beijing
- 14.11 6th Conference on Computer Mathematics, Chongqing
- 14.07 International Workshop on Symbolic-Numeric Computation, Shanghai
- 13.06 38th International Symposium on Symbolic and Algebraic Computation, Boston
- 12.10 ECRYPT II Summer School on Lattices, Porto
- 12.07 37th International Symposium on Symbolic and Algebraic Computation, Grenoble
- 10.10 3rd Conference on Computer Mathematics, Shanghai
